to the Board Members—

These structures are a perfect symbol of a community that cares about the people that populate and sustain our world. And they are a unique group of structures like no others in the world. ~~They~~ <sup>They</sup> are the unique and visible bones we all live with. They tell the world how our community will show how our community can (and should) value history, environment, and education ahead.

for generations ahead.

Please vote to PRESERVE  
THE DOMES!

I would like to know  
what will happen to the  
hills. I think destroying these  
hills will change the shape  
too much. The hills were there  
to run & roll down. Please  
don't destroy them!!

It is impossible to tell exactly what changes have been planned for all of this development. There are no labels on these proposed building photos. There are no before + after photos to compare.

Further what are the exact plans for administration of this development? Who
