

OASIS GOVERNANCE BOARD, DECEMBER 6, 2019
911 Special Committee Action Items

911 Special Committee Vision:

To prepare PSAP's in Milwaukee County for future 911 technologies and call handling efficiencies

MCO 91 Recommendation:

Milwaukee County Chapter 91.09 – “Calls originating from mobile cellular phones within the county shall be routed to the county sheriff’s department.” • The committee proposes Chapter 91.09 to read **“Calls initiated from cellular provider networks within Milwaukee County shall be routed in accordance through intergovernmental agreements between public safety answering point agencies and the Milwaukee County Office of Emergency Management.”**

The committee also proposes changing the title of Milwaukee County Ordinance Chapter 91.09 to “Cellular Network 911 Calls”.

The committee also proposes that the agreements with the public safety answering points memorialize the current state and then set a time frame for renegotiation.

The committee also suggests that the time frame for implementation coincide with Next Generation 911.

The committee also recommends that the ordinance will not change until agreements are in place with all currently served public safety answering points.

MCLEEA Presentation

Upon approval, we would like to display the GIS map at the MCLEEA meeting and explain what the cell data displays. We are working on talking points but intended to have a brief informational session solely using that GIS map of cell data and answer any questions.
