### DESCRIPTION

**Please provide a detailed description of the request:**

The easement requested serves residential properties on N. Gordon Court. There is currently an underground electric system there, but due to its age and condition WE Energies is planning to replace the current system to improve reliability of the electrical service. When WE Energies started the project, they realized that a garage was built over the original underground electric system. Because of the location of the garage WE Energies is unable to replace the underground cable solely on the residential properties and is requesting a 15' wide easement to install the underground cable by directional bore. Using comparable land values, WE Energies is offering \$1,000 for the proposed easement rights for .0847 acre of land. All installation work will be underground.

**How will this proposal improve your operations, enhance customer service or otherwise benefit your department and the County?**

Milwaukee County Parks frequently coordinates with WE Energies for the purpose of utility services both to Parks facilities and across parkland. The fee benefits Parks and the upgrade of electrical service to the residential homes is beneficial to the community.

(b) Grantor and Grantee understand, acknowledge and agree that this easement is non-exclusive and that Grantor will continue to use the easement area and shall have the right to make other agreements, such as leases, licenses, and easement with one or more utilities or other entities provided that any such subsequent agreements shall not interfere with Grantee's rights under this easement. Facilities and equipment other than that which is defined in this easement shall be installed only upon amendment of this easement or negotiation of an additional easement.

**2. Construction; Access:**

3. **Buildings or Other Structures:** Grantor agrees that no structures will be erected in the easement area or in such close proximity to the electric facilities as to create a violation of the Wisconsin State Electrical Code or any amendments to it.
4. **Elevation:** Grantor agrees that the elevation of the ground surface existing as of the date of the initial installation of Grantee's facilities within the easement area will not be altered by more than 4 inches without the written consent of Grantee, request for which shall be promptly considered by Grantee and not unreasonably withheld.

11. **Binding on Future Parties:** This grant of easement shall be binding upon and inure to the benefit of the heirs, successors and assigns of all parties hereto.
