

Application for the Integration of the Aging Resource Center and the Disability Resource Center in Milwaukee County

Questions for public consideration:

1. How can a combined Aging and Disability Resource Center make accessing services and supports easier?

- 2. What can the ADRC do to improve its own service delivery through this integration and improvement process:
 - 1. *Information & Assistance* (One stop Call Center including referral to the Aging and Disability service systems in Milwaukee County)?
 - 2. HCBS Long Term Care Services Functional Screening, Medicaid Eligibility & Options Counseling
 - 3. Screening & Referral to Aging Unit and AAA services (Caregiver Support, Dementia Care Specialists, Elder Abuse, Elder Benefit Specialist, Guardianship, SeniorLAW, Senior Nutrition, Senior Transportation, Socialization).

3. Are there other groups we should be reaching out to for input?
