BACKGROUND

The Airport's 2011 Capital Budget included \$5,436,000 for design of a remodeled baggage claim building. The project included new baggage claim carousels, new mechanical, electrical, restrooms, and lighting. Also the project included new curb-fronts and a canopy to cover much of the baggage claim roadway protecting passengers from the weather.

Construction is anticipated to start in early 2012 and last approximately 16 months.

Engberg Anderson will make a brief presentation on design efforts to date.
